Global Consortium for Biomarker Standardization

At a Glance
- Status: Active Consortium
- Year Launched: 2010
- Initiating Organization: Alzheimer’s Association
- Initiator Type: Nonprofit foundation
- Location: North America

Research Areas
- Tool Development
- Standard
- Biomarker Research

Abstract
The Alzheimer’s Association has established the Global Consortium for Biomarker Standardization to gather key researchers, clinicians, and industry, regulatory, and government leaders in Alzheimer’s disease (AD) to achieve consensus on the best ways to standardize and validate biomarker tests for use in clinical practices around the world.

Mission
The Consortium will continue to grow and expand as the field identifies novel technologies and techniques for diagnosis of AD. To date, projects are addressing the following:

Impact/Accomplishment
cerebrospinal fluid biomarkers.
