Abstract

The Regenerative Medicine Coalition (RMC) is a working network aimed to accelerate the delivery of regenerative therapies to patients.

Mission

RMC works to share knowledge, infrastructure, and intellectual property and practice the principles of open innovation and jointly execute collaborative projects. RMC's approach intends to accelerate cost-efficient therapy development.

Consortium History

January 2012: Consortium announced

Structure & Governance

There are three types of members in RMC: core, industry, and associate. Each membership level is associated with different benefits.

Executive Committee:

President, Chris Mason, London, UK

Vice president, Anthony Atala, Winston-Salem, N.C.

Secretary general, Frank-Roman Lauter, Berlin, Germany

Advisory Board:

Gregory A. Bonfiglio, Portola Valley, Calif. (chair)

Bernat Soria Escoms, Sevilla, Spain

Michael May, Toronto, Canada

Vinod Subramaniam, Eindhoven, The Netherlands

Rocky Tuan, Pittsburgh, Penn.

Christian van den Bos, Cologne, Germany

Hans-Dieter Volk, Berlin, Germany
